

Sintered bronze silencer

Art. No. 148079

Type No. SD34-MFFU

Exemplary illustration

For reducing exhaust air noise in pneumatic systems.

Technical data

Description	Sintered bronze silencer G 3/4
-------------	--------------------------------

The use of silencers does not automatically reduce exhaust air noise to a level that is harmless to health. In any case, it must be checked whether further noise reduction measures are necessary, e.g. wearing hearing protection.

The applications and areas of use are the responsibility of the user. However, it is necessary to carry out appropriate tests prior to use in order to satisfy oneself that the desired function will be achieved under the respective conditions. All further claims, in particular liability for consequential damage, are excluded.
