Building Networks for People

Highlights

Fast Mobile Broadband for All Your Devices

Connect your high-speed mobile broadband connection to multiple Wi-Fi devices such as smartphones, tablets and notebook computers

Stay Safe

A built-in firewall protects against attacks over the Internet, and industry-standard WPA/WPA2 security prevents unauthorised access to your network

Stay Connected, Wherever You Are

Small enough to fit in your pocket with high-capacity rechargeable battery, lets you work and play for longer on the go

DWR-932
4G/LTE Mobile Router

Features

Connectivity
- Uses a SIM card to connect to the Internet
- Compatible with 802.11n/g/b wireless devices
- Micro-USB port for easy charging

Portability
- Up to 5 hours of battery in one charge so you stay connected longer
- Portable design is small enough to fit in your pockets to take with you wherever you go

Security
- WPA/WPA2 Wi-Fi security protocols provide the latest in wireless security
- Built-in firewall keeps unwanted connections out
- Wi-Fi Protected Setup (WPS) for one-touch secure setup with other devices

The DWR-932 4G/LTE Mobile Router is a 4G/LTE Cat4 high-speed broadband Wi-Fi mobile hotspot. The DWR-932 uses a 4G Internet connection to give you a simple and fast Wi-Fi network anywhere you need[3]. Instead of limiting your mobile Internet connection to a single device through a USB dongle, the DWR-932 allows you to create a Wi-Fi hotspot to share your Internet connection with multiple devices. The portable size and battery powered enabled you to share your connection anywhere. Share a single mobile Internet connection with your friends or colleagues to send and receive e-mail, surf the Internet or make VoIP calls, on multiple devices, all at the same time.

Connect Anywhere

Simply insert your data-enabled SIM card and share an Internet connection, allowing your family and friends stay connected. Ideal for business trips to share an Internet connection during a meeting or while travelling, allowing you to provide all your travel companions Internet access whether they're using a laptop or a mobile device.

Security Features to Keep Your Network Safe

The DWR-932 4G/LTE Mobile Router is easy-to-use and includes a host of security features. The built-in firewall keeps connected computers and other devices safe from Internet intrusions, while WPA security encryption prevents unauthorised users from connecting to your network. Wi-Fi Protected Setup (WPS) helps you to create a secure wireless network, and add new devices with just the touch of a button, getting you securely connected in no time.

Flexible Usage

The DWR-932 4G/LTE Mobile Router gives you instant connectivity, all in a powerful yet portable device, that fits easily into your pocket. The rechargeable 2000 mAh Li-on battery allows you to stay connected for long periods of time, and it's plug-and-play with no complicated software to install. Getting online with the DWR-932 4G/LTE Mobile Router is quick, easy, and convenient.

Technical Specifications

General

Frequency Support[1]	• GSM/GPRS/EDGE: 850/900/1800/1900 MHz • UMTS/HSDPA/HSUPA: 2100/900 MHz	• FDD-LTE: Band 3, 7, 20 • LTE output power class: 23 dBm (class 3)
Data Throughput[2]	• Downlink up to 150 Mbps	• Uplink up to 50 Mbps
Security	• WPA/WPA2 PSK Auto (TKIP/AES)	• WPS Push-Button Connection
Advanced Functions	• Built-in firewall • Built-in NAT	• UPnP

Physical

Interfaces	• 802.11n/g/b wireless LAN • 6-pin USIM card interface	• Micro-USB port
Antenna	• DL MIMO (1x2)	• Internal Wi-Fi antenna
LED	• Network type • Battery status	• Wi-Fi status
Power	• DC 5 V/1 A ± 5%	• 2000 mAh Li-ion battery
Dimensions	• 105 x 65 x 16 mm (4.13 x 2.55 x .59 in)	
Weight	• 100 g (.22 lb)	
Operating Temperature	• 0 to 40 ˚C (32 to 104 ˚F)	
Storage Temperature	• -20 to 70 ˚C (-4 to 158 ˚F)	
Operating Humidity	• 10% to 90% (non-condensing)	
Certifications	• CE	• RoHS

1 Supported frequency band is dependent upon regional hardware version.
2 Data rates are theoretical. Data transfer rate depends on network capacity and signal strength.
