

AudioCodes License Key Service LKS-5/YR

This service includes transferring the software license from a deployed AudioCodes product to another unit (e.g. - a spare unit). In addition - support coverage (from faulty unit) is transferred to spare unit (part of RMA process). This service is available for AudioCodes products that are covered by a valid support contract. The service should be ordered for each deployed product (by serial number) - whose license key is to be copied - and is valid for one license transfer per year.
